

STEROID FREE SPORTS

Since May 11, 2006, TAPPS has posted on its web site, the TAPPS Policy on **Substance and Steroid Abuse**

TAPPS Schools that field football teams have recently received a packet in the mail from **Steroid Free Sports**, which outlines their program for testing for steroid and other substance abuse. This program has been reviewed and approved by the TAPPS Executive Board.

The TAPPS Board has **recommended** that its member schools provide such a program and **recommends Steroid Free Sports** as the source for this program.

TAPPS does not **require** such a program for its member schools at this time.
