

R.U.N Timing Services

Athletic Directors and Track & Field Coaches.

If you are looking for someone to automatically time your track & field events, then we would like the opportunity to serve you. We use a FINISH LYNX Timing system, with WIRELESS start. Listed below is option #1 our basic package; however there are several other options as well.

Pricing: #1 The basic package for timing only (i.e., you would be responsible for all data processing - entries, and heating, using Hy-Tek Meet Manager). We will process results as a part of the service.

One finish line system one camera with tripod & connections - \$ 400.00
Wireless start - \$0
Hytek computer with Lynx interface \$0
2 Operators - \$300.00
Mileage and meals - \$250.00 – 400.00
Hip Numbers - \$0
Results - \$0
Total - \$950 - \$1,100.00

We can provide the data services for an additional fee of \$500.

Over the last 2 years we have done 6 district meets, 2 regional meets, and several invitationals. We are a new company, and would like any input you may have on costs, services, etc. Thanks in advance.
